Nexora AI

See. Hear. Speak. Act.

Voice-Driven AI Tutor

Nexora AI is a voice-first AI tutor that teaches hands-on skills through real-time conversation and live screen automation - students learn by watching and speaking, without typing.

How it works

- **Voice**: Gemini Live API for natural conversation
- **AI Brain**: Gemini Flash for intent detection and explanations
- **Desktop Vision**: AI reads the screen and executes actions
- **Browser Automation**: Performs tasks on websites
- **Interface**: React + noVNC live desktop streaming
- **Cloud**: Runs on Google Compute Engine

Key Capabilities

- Explains slides visually
- Executes Desktop and browser tasks
- Voice-driven learning experience

Built with: Google GenAI SDK • Gemini Live API • FastAPI • React • GCE
